### Professional Summary

Senior Software Developer with over 17 years of experience in building scalable web and mobile applications using JavaScript/TypeScript, with a focus on React, React Native, Next.js, and NestJS. I don't just write code — I build products. I combine my technical expertise with hands-on experience in managing a small-scale business project involving e-commerce, digital ads, logistics, and software development.

### Professional Experience

#### Full-Stack Developer & Entrepreneur

Current

Aug 2024 - Present  
(10m)

#### Self-employed Entrepreneur

Location: Düren, North Rhine-Westphalia, Germany

Currently building a full-stack marketplace platform for car and real estate listings, targeting users in Arabic-speaking countries. The platform includes a web frontend (Next.js), a mobile app (React Native), and a scalable backend API using NestJS.

##### Key Achievements:

- Built comprehensive marketplace with authentication system
- Implemented image upload and management features

#### Full-Stack Developer & Entrepreneur (Partnership)

Aug 2019 - Jun 2024  
(4y 10m)

#### Saydatex GmbH Corporate

Location: Dubai, United Arab Emirates

Strategic partnership role combining full-stack development expertise with entrepreneurial business leadership. Led comprehensive technical architecture decisions while driving business strategy, e-commerce platform development, and digital transformation initiatives. Managed end-to-end product development lifecycle from conception to deployment, overseeing B2B integrations, digital advertising analytics, and cross-platform solutions.

##### Key Achievements:

- Architected and led development of multi-platform e-commerce solutions
- Designed and implemented complex B2B integration systems and APIs

#### Independent Software Developer

Jan 2016 - Jul 2019  
(3y 6m)

#### Freelance Developer Entrepreneur

Location: Guangzhou, China

Worked as an independent contractor on various web and mobile applications, gaining experience in international markets and cross-cultural development.

##### Key Achievements:

- Delivered projects for international clients
- Gained expertise in Chinese market requirements

#### Software Developer

Nov 2011 - Dec 2015  
(4y 1m)

#### Gold Spider GmbH Corporate

Location: Dubai, United Arab Emirates

Full-time software development role focusing on web applications and system development in the UAE market.

##### Key Achievements:

- Developed robust web applications
- Contributed to system architecture decisions

#### Software Developer

Jan 2009 - Oct 2011  
(2y 9m)

#### Techno Smart GmbH Corporate

Location: Abu Dhabi, United Arab Emirates

Early career development role where I started building professional software development experience.

##### Key Achievements:

- Started professional development career
